SwiftCheckPrint printer-alignment test

1. Print on plain US Letter paper in portrait orientation.
2. Select Actual Size or 100%. Turn off Fit, Shrink, headers, and footers.
3. Hold this page behind your check stock and compare the top-check boundary and crosshairs.
4. Adjust one SwiftCheckPrint X or Y offset at a time, then create a fresh test print.
5. Do not sign, deposit, issue, or use this page as a payment instrument.

NOT A VALID CHECK - FICTIONAL DATA ONLY

One-inch reference ruler

NOT A VALID CHECK - DO NOT ISSUE

Generated for SwiftCheckPrint alignment testing with fictional data and no signature.
